Education

York University

Toronto, ON

Bachelor of Science (Honours) in Computer Science

Sept 2020 - Apr 2025

- **Relevant Coursework:** Data Structures, Algorithms, Object-Oriented Programming, User Interfaces, System Design, Embedded Systems, Computer Organization, Operating Systems

Experience

Gap Inc.

London, ON

IT Support Technician

June 2025 - Present

- Collaborated with the **Software Engineering team** on a company-wide internal portal redesign used across **all Gap Inc. Distribution Centres**, contributing to the development of a modern, scalable web application using **Astro, HTML/CSS, Tailwind CSS, JavaScript, JSON, and MySQL**.
- Developed and maintained **internal automation and support tools** that streamlined issue resolution and reduced operational downtime by **20%** across warehouse endpoints.
- Built scripts and workflow improvements leveraging **ServiceNow, Jira, and Nexthink APIs/data outputs**, reducing incident resolution time by **15%** and improving monitoring efficiency.

BuyWise Plus

Toronto, ON

Software Engineer

Jan 2023 - Apr 2024

- Built an internal **employee and device tracking web tool** using **React, TypeScript, JavaScript, and HTML/CSS**, reducing manual tracking effort by **30%** and improving visibility for **20+ employees**.
- Developed **modular, reusable UI components** and optimized frontend performance to ensure a responsive and maintainable user experience.
- Implemented **data validation** and **synchronization logic** to maintain consistency across inventory, transactions, and employee records.

Banana Republic

Vaughan, ON

Acting Lead and Daily Operations Manager

May 2024 - June 2025

- Led and coordinated a team of **40+ employees**, driving execution against performance and revenue targets through data-informed decision-making and process improvements.

Projects

Covid (Best Hardware Hack at yuHacks 2021)

[Github](#)

- Developed a **mobile application** that allowed businesses to scan cov-IDs (NFC cards) to quickly and securely verify customers' COVID-19 test results before entry, ensuring safer access.
- **Technologies:** Java, XML, Android Studio, NFC (secure validation), Google Maps API (real-time location tracking).

Portfolio Website

[Github](#)

- Designed and developed a responsive personal portfolio to showcase **projects, skills, and experience**, featuring a clean **UI**, dynamic content rendering, and modern front-end best practices.
- **Technologies:** React, TypeScript, JavaScript, Tailwind CSS, Vercel.

Leadership

YorkU CSHub

Toronto, ON

Member of Events Coordinator Committee

Sept 2022 - Apr 2025

- Hosted and coordinated **15+** community-focused events, including coffee chats and networking sessions for **1,000+** CS students, collaborating with a **20+** member organizing team.
